# Tobacco Treatment Best Practices in the EMR

## Tobacco Use Screening

### Recommended Screening Functions

- ✓ Hard stop in EMR for tobacco use screening
- ✓ Screening for every patient at every visit
- ✓ E.g., have you used tobacco in the past 30 days, 6 months, 1 year
- ✓ Screening for all forms of tobacco and non-traditional products such as Vapors or Hookah
- ✓ Collects information about tobacco use consumption
- ✓ Collects information about daily tobacco use quantity
- ✓ Triggers work order for cessation consult and cessation medication

### Sample Screen Shot

<input checked="" type="checkbox"/> <b>Smoking History</b> <span style="float: right;">✓</span>	
<input checked="" type="checkbox"/> Smoking	
Smoking status	<input type="radio"/> Former smoker <input type="radio"/> Smoker current status unknown <input type="radio"/> Never smoker <input type="radio"/> Unknown if ever smoked <input type="radio"/> Current every day smoker <input type="radio"/> Current some day smoker <input type="radio"/> Light tobacco smoker (Less than 10 cigarettes daily) <input type="radio"/> Heavy tobacco smoker (Greater than 10 cigarettes daily)
Smoking stop date	
How many cigarettes do you smoke per day?	▼
How many cigars do you smoke per day?	▼
Does patient use an electronic or vapor cigarette	<input type="radio"/> Yes <input type="radio"/> No Comment:
How many vapor cigarettes do you use per day?	▼
Does patient dip or chew tobacco	<input type="radio"/> Yes <input type="radio"/> No Comment:
How many cans/pouches per week?	▼
Is this a cardiac diagnosis?	<input type="radio"/> Yes <input type="radio"/> No Physician order required to initiate smoking protocol for all cardiac diagnoses.
Smoking protocol initiated?	<input type="radio"/> Yes <input type="radio"/> No
<input type="checkbox"/> Cultural/Spiritual Screen <span style="float: right;">✓</span>	

## Tobacco Cessation Intervention
